SUMMARY

I have experience supporting and developing CRM implementation software with languages such as JavaScript, VBScript, C#, .NET Framework, ASP.NET (Core & MVC), ASP.NET, HTML, CSS, jQuery, React JS, and SQL (SSMS) for databases and data structures and maintenance.

SKILLS

C#	ASP.NET	ASP.NET Core	ASP.NET MVC	JavaScript
JQuery	SQL Server (SSMS) for DBs	HTML	CSS	VBScript
Github	Git	VB.Net	OOPS	Data Structures and Algorithms (DSA)
Tortoise SVN	Debugging	.NET Framework		

EXPERIENCE

Dot Net Developer (R & D)

Stayin Front India PVT Ltd.

📅 03/2023 - Present 📍 Gandhinagar

Company specializing in software development.

- I have developed efficient and maintainable code using technologies like JavaScript, VBScript, C#, .NET Framework, ASP.NET (Core & MVC), ASP.NET, HTML, CSS, jQuery, React JS, and SQL (SSMS) for databases and data structures and maintenance. working on both frontend and backend components of various projects. My focus has been on enhancing application performance by optimizing code and implementing new features that improve the user experience.
- I have written detailed Functional Requirement Specifications (FRS) and technical documentation to ensure alignment with project goals and stakeholder expectations before implementing new features.
- Throughout my career, I have collaborated with cross-functional teams to debug and deploy large-scale applications, ensuring high quality and robustness. I continuously explore new technologies and tools, integrating them into projects to enhance development workflows and application functionality.
- In addition, I contribute to a knowledge-sharing culture by mentoring junior developers, providing insights into best practices for coding, testing, and deployment. I also apply strong problem-solving skills to identify and resolve complex technical issues, ensuring smooth project delivery and optimal performance. My experience includes utilizing GitHub for version control, collaboration, and efficient project management.

INTERNSHIPS/TRAINING

Software Developer

Milestone OS PVT LMT

📅 11/2022 - 02/2023 📍 Noida

- Assisted in the development of web applications using JavaScript, HTML/CSS, and jQuery on GitHub, contributing to both frontend components.
- I worked with senior developers to debug and test applications, ensuring smooth integration and functionality across platforms. Participated in the creation and optimization of SQL queries to improve data handling and application performance. Contributed to writing clear documentation and maintaining project resources for ease of future development and troubleshooting.
- I gained valuable hands-on experience in working with Agile development methodologies and collaborated in a team-based environment.
- Applied strong problem-solving skills to identify and resolve complex technical issues, ensuring smooth project delivery and optimal performance.

PROJECTS

Coffee Community (CG 12.39. Version Product)

📅 10/2024 - Present

Coffee Community (CG 12.39. Version Product)

- I worked on developing new features and fixing bugs while also creating workflows and modules for inventory, warehouses, and route management for wholesalers. I designed and implemented functional location modules for both the Touch and Portal platforms, improving the overall application and enhancing my technical skills.
- In this role, I wrote clean, efficient, and maintainable code using JavaScript, VBScript, C#, .NET Framework, ASP.NET (Core & MVC), HTML, CSS, and jQuery, and SQL (SSMS) for DBs.
- I worked on both the frontend and backend across multiple projects, ensuring seamless integration with SQL Server

CG 12.37-12.38. Version (Consumer Good) Product

📅 04/2024 - 09/2024

- Developed new features and processes, including bug fixes, and created the workflow and improvements. Develop the inventory and warehouse function in this project.
- In this role, I wrote clean, efficient, and maintainable code using JavaScript, VBScript, C#, .NET Framework, ASP.NET (Core & MVC), HTML, CSS, and jQuery.
- It is a multiple-project front-end designed and works on SQL Server.

Music Player (College Project)

📅 10/2022 - 12/2022

A music player software project.

- Developed a software project supporting all known media files for easy playback.
- Users can attach folders and add various media files with track lists.

Hotel Management System (College Project)

📅 02/2022 - 06/2023

Addresses demand for online room bookings among students and staff.

- Developed a Python-based hotel management system for online room bookings.
- Features modules for login, dashboard, room details, issue management, payment tracking, and check-out.

CERTIFICATION

Python Programming

C Programming for Beginners

Data Structures and Algorithms (Udemy)

COURSE
