SUMMARY

I am a flexible and enthusiastic software developer with experience in many technologies, including ASP.NET, JavaScript, SQL Server, C#,.NET Framework, HTML/CSS, VB.NET, Python, Java, and VBScript. I am passionate about learning new skills and growing professionally. I can work on both the frontend and backend of projects, solving problems, improving performance, and making sure everything works smoothly.

I enjoy working with teams and bringing my knowledge to new, creative projects. With my technical skills and focus on quality, I am excited to take on new challenges and contribute to teams that value innovation and teamwork.

EXPERIENCE

Dot Net Developer

StayinFront India PVT LMT

📅 03/2023 - Present   📍 Gandhinagar

Company specializing in software development.

- Developed efficient and maintainable code in JavaScript, VBScript, C#,.NET Framework, HTML/CSS, and jQuery, working on both frontend and backend components of various projects.
- Enhanced application performance by optimizing existing code and introducing new features that improved user experience.
- Write comprehensive Functional Requirement Specifications (FRS) and other technical documentation before implementing new features to ensure alignment with project goals and stakeholder expectations.
- Developed and optimized SQL queries and database structures to improve data management and retrieval efficiency.
- Collaborated with cross-functional teams in the debugging and deployment of large-scale applications, ensuring high quality and robustness.
- Continuously explored new technologies and tools to stay ahead of industry trends, incorporating them into projects to improve development workflows and application functionality.
- Contributed to the development of a knowledge-sharing culture by mentoring junior developers and offering insights on best practices in coding, testing, and deployment.
- Applied strong problem-solving skills to identify and resolve complex technical issues, ensuring smooth project delivery and optimal performance.
- Actively utilized GitHub for version control, collaboration, and efficient project management, ensuring seamless team coordination and code integration.

Software Developer

Milestone OS PVT LMT

📅 11/2022 - 02/2023   📍 Noida, Uttar Pradesh, India · Remote

A software development company providing innovative solutions.

- Assisted in the development of web applications using JavaScript, HTML/CSS, and jQuery on GitHub, contributing to both frontend components.
- I worked with senior developers to debug and test applications, ensuring smooth integration and functionality across platforms.
- Participated in the creation and optimization of SQL queries to improve data handling and application performance.
- Contributed to writing clear documentation and maintaining project resources for ease of future development and troubleshooting.
- I gained valuable hands-on experience in working with Agile development methodologies and collaborated in a team-based environment.
- Applied strong **problem-solving** skills to identify and resolve complex technical issues, ensuring smooth project delivery and optimal performance.

EDUCATION

B. TECH(CSE)

Shambhunath Institute of Engineering and Technology

📅 08/2019 - 06/2023   📍 Prayagraj, UP

SKILLS

C#	ASP.NET	ASP.NET Core	MVC

C Programming   HTML+CSS

Data Structures And Algorithms   Debugging

Java   Javascript   JQuery   OOPS

Python   SQL Server   Tortoise SVN   VB.Net

VBScript   Github   Git

PROJECTS

CG 12.39. Version (Consumer Good) Product

📅 10/2024 - Present

Consumer Good Product CG version 12.39.

- Developed new features and processes, including bug fixes, and created the workflow and improvements. Develop the inventory and warehouse function in this project.
- It is a multiple-project front-end designed and works on SQL Server.

CG 12.38. Version (Consumer Good) Product

📅 04/2024 - 09/2024

- Developed new features and processes, including bug fixes, and created the workflow and improvements. Develop the inventory and warehouse function in this project.
- It is a multiple-project front-end designed and works on SQL Server.

CG 12.37. Version (Consumer Good) Product

📅 10/2023 - 03/2024

- Developed new features and processes, including bug fixes and improvements.
- It is a multiple-project front-end designed and works on SQL Server.

CG 12.36. Version (Consumer Good) Product

📅 03/2023 - 09/2023

- Developed new features and processes, including bug fixes and improvements.
- It is a multiple-project front-end designed and works on SQL Server.

Music Player (College Project)

📅 10/2022 - 12/2022

A music player software project.

- Developed a software project supporting all known media files for easy playback.
- Users can attach folders and add various media files with track lists.

EDUCATION

10+2 Science(PCM)
Ram Preet Khedu Intermediate College
📅 04/2016 - 03/2018   📍 Padrauna, UP
