SUMMARY

Full Stack .NET Developer with 3.5+ years of experience in designing, developing, and deploying scalable enterprise web applications. Strong expertise in C#, .NET Core, ASP.NET MVC/Core, Web API, Angular, and SQL Server. Experienced in building secure REST APIs with JWT authentication, API versioning, and caching. Proficient in Clean Architecture, OOP principles, Azure services, and IIS deployments, with a strong focus on performance optimization, scalability, and maintainable code.

SKILLS

C#, ASP.NET Core, ASP.NET MVC, JavaScript, Web API, JQuery, Entity Framework (EF) Core, SQL Server (SSMS) for DBs, HTML, CSS, GitHub, React JS, OOPS, VB Scripts, VB.NET, Git, Tortoise SVN, Debugging, Angular, Azure(DevOps), ADO.NET, Blazor UI, Data Structures and Algorithms (DSA), Microservices, TypeScript, WEB From, WCF, UI/UX

EXPERIENCE

Full Stack Net Developer

[Tripearltech Private Limited](#)

Ahmedabad, India

06/2025 - Present

- Designed and deployed enterprise-level web applications using .NET Framework, .NET Core, ASP.NET MVC/Core, and Web API, Web Forms, and Windows Application.
- Developed secure and scalable RESTful APIs using JWT authentication, API versioning, and caching, improving API reliability and security.
- Built responsive and high-performance user interfaces using Angular 18, TypeScript, JavaScript, jQuery, HTML5, CSS3, and Blazor UI, with a strong focus on UI/UX.
- Worked extensively with SQL Server (SSMS) using Entity Framework, EF Core, ADO.NET, and LINQ, optimizing queries, indexing, and database performance.
- Improved application performance through query optimization, LINQ tuning, and proper ACID transaction handling.
- Integrated Azure services, including Azure Blob Storage, and worked on Microsoft 365 Business Central API integration and data flow testing.
- Applied Clean Architecture and OOP principles, implementing dependency injection, middleware, and structured error handling.
- Used Git/GitHub, SVN, and Azure DevOps for version control, CI/CD collaboration, and code management.
- Deployed and maintained applications on IIS servers, ensuring stability and scalability in production environments.
- Collaborated with cross-functional teams to debug issues, enhance application quality, and deliver solutions on time.
- Demonstrated strong analytical and problem-solving skills, contributing to clean, testable, and scalable codebases.
- Used tools on Visual Studio, SSMS, Postman, and Swagger.
- Implemented WhatsApp integration using a scheduler (cron jobs) and integrated the Axis Bank API through a middleware layer.

Dot Net Developer

[StayinFront India PVT Ltd.](#)

Gandhinagar

03/2023 - 05/2025

- Designed and deployed web applications using .NET technologies and developed secure, scalable RESTful APIs with JWT authentication.
- Built high-performance, responsive user interfaces leveraging Angular 18, TypeScript, HTML5, and Blazor UI, enhancing user experience with a focus on UI/UX.
- Optimized application and database performance through query tuning, LINQ optimization, and implementing ACID transaction handling.
- Integrated Azure services and Microsoft 365 Business Central API, enhancing data flow and testing reliability.
- Applied Clean Architecture principles and OOP, focusing on dependency injection, structured error handling, and middleware implementation.
- Deployed applications on IIS, collaborating with cross-functional teams to debug issues, improve application quality, and ensure scalable production environments.
- Utilized Git/GitHub and SVN for code management and implemented WhatsApp and Axis Bank API integrations using middleware and cron jobs.

PROJECT

Prakash Chemical Project

06/2025 - Present

- Developed maintainable and reusable code using C#, .NET Framework, ASP.NET MVC, ASP.NET Core, JavaScript, VBScript, HTML, CSS, jQuery, and SQL Server (SSMS), Angular and Bootstrap.
- Implemented end-to-end functionality for multiple modules including Sales Quote, Customer Management, Warehouse, Business Plan, and Daily Visit Management.
- Built sales management features like inquiry management, sales quotation, sales order tracking, invoices, and dispatch details.
- Developed Vendor and Customer Portal features including Sales Quote Reports, Ledger Entries, Order Management, and Outstanding Reports.
- Integrated CRM application with Microsoft Dynamics 365 Business Central using OData and API services.
- Developed customer, contact, product, salesperson, branch, and role management modules.
- Configured role-based menus, user rights, and permission-based access controls to improve security and user experience.
- Created daily visit planning, expense tracking, and business planning functionalities for sales teams.
- Developed warehouse and logistics management features including warehouse tasks, transporter details, and vendor selection.
- Implemented OTP login, forgot password, reset password, trusted device, and profile management functionality.
- Developed dashboards and reports for sales performance, inventory, outstanding payments, warehouse tasks, and daily visits.
- Implemented document upload and attachment features for GRN and visit modules with ERP integration.
- Added notification modules for sales orders, invoices, approvals, and task-related updates.
- Created Excel export, filtering, sorting, paging, and download functionalities using ClosedXML/OpenXML.
- Developed and consumed REST APIs for CRM and ERP data integration.
- I have integrated Axis Bank with the CRM application by creating middleware. Through this middleware, all incoming payments are sent to Axis Bank, and the UTR is received to update the payment status accordingly.

PROJECT

Coffee Community Projects	10/2024 - 05/2025
- Developed new features and resolved bugs while building workflows and core modules for inventory management, warehouse operations, and route management for wholesale applications. - Designed and implemented functional location modules for both Touch and Web Portal platforms, enhancing application usability and overall system performance. - Wrote clean, efficient, and maintainable code using C#, .NET Framework, ASP.NET Core, ASP.NET MVC, JavaScript, VBScript, HTML, CSS, jQuery, and SQL Server (SSMS). - Improved system integration and performance by optimizing frontend-backend interactions across multiple projects using SQL Server. - Designed and implemented responsive front-end interfaces for multiple projects with seamless integration to SQL Server databases. - Performed API testing and validation using Swagger and Postman to ensure functionality, performance, and reliability. - Used version control systems including GitHub, SVN, and Azure DevOps for source code management, team collaboration, and deployment workflows.	

Consumer Good Projects	04/2024 - 09/2024
- Developed new features and enhanced processes, including bug fixes, resulting in improved workflow and system efficiency across multiple projects. - Designed and implemented inventory and warehouse management functionality, enhancing operational efficiency and data accuracy. - Wrote clean, efficient, and maintainable code using C#, .NET Framework, ASP.NET Core, ASP.NET MVC, JavaScript, VBScript, HTML, CSS, and jQuery. - Designed and implemented responsive front-end interfaces for projects with seamless SQL Server database integration. - Performed API testing and validation using Swagger and Postman to ensure functionality, performance, and reliability. - Utilized version control systems including GitHub and SVN for source code management and team collaboration. - Built and maintained front-end components for projects, ensuring seamless integration with SQL Server databases.	

EDUCATION

B. TECH(CSE)	Prayagraj, UP
Shambhunath Institute of Engineering and Technology	08/2019 - 06/2023
10+2 Science (PCM)	Padrauna, UP
Ram Preet Khedu Intermediate College	04/2016 - 03/2018
10Th Higher (Mathematics)	Padrauna, UP
Ram Preet Khedu Intermediate College	04/2015 - 03/2016

INTERNSHIP

Milestone OS PVT LMT - (Software Developers)	11/2022 - 02/2023
Assisted in the development of web applications using JavaScript, HTML, CSS, and jQuery , contributing to frontend components and UI functionality. Collaborated with senior developers to debug, test, and validate applications , ensuring smooth integration and cross-platform functionality. Participated in the creation, optimization, and maintenance of SQL queries , improving data handling and application performance. Contributed to writing clear technical documentation and maintaining project resources to support future development and maintenance efforts.	

COURSE

C# Programming	02/2024 - Present
Python Programming	06/2020 - 03/2021
Data Structures and Algorithms	2021 - 01/2023
